

Job Opportunity: Project Manager

Bourn Environmental is accepting resumes for a Project Manager (min. of 2 years' experience) to lead environmental projects and manage new and existing client relationships in Prince George's County, MD.

The desired candidate's primary responsibilities would include maintaining and advancing new and existing client relationships while overseeing successful completion of environmental projects such as stormwater management, stream restorations and shoreline stabilizations. A successful candidate will have familiarity and experience with common best management practices within the restoration field. Experience in ordering materials, submittals, change orders, invoicing, project close-out and dealing with on-site inspectors is essential. Additional responsibilities may include soliciting and preparing new proposals, identifying potential new clients and/ or new avenues of business utilizing personal experience and internal feedback on industry trends.

The preferred candidate will possess a B.S. in an environmental science, civil engineering, or related field (such as ecology, botany, geology, etc). Master's degree is preferred. Candidates will have excellent technical writing and verbal communication skills, knowledge and experience with Federal/State/Local environmental regulations, and work well in a team setting.

Bourn Environmental offers competitive salary (\$70,000-\$95,000) and benefits (10-15 days PTO, 10 paid Holidays, health/ dental/ vision) a challenging work environment, and the opportunity for personal development in a team-oriented environment.

We're a Veteran Owned Small Business that cares about the restoration of the Chesapeake Bay. We love what we do because it matters for the overall health of our watershed. If you love the outdoors and want to spend your time making a difference, please apply to join our team.

Applicants should apply on Indeed or contact Christopher Perry directly at cbperry@bournenvironmental.org.
