

**Senior Engineer - Stream Restoration (Full Time)**

**Location:** Richmond, Fairfax, Virginia Beach or Newport News, VA

**Department / Division:** Transportation: Water Resources

RK&K is a highly respected, nationally ranked engineering consulting firm ranked 68th on the Engineering News Record's 2019 listing of the Top 500 Design Firms. Our diverse practice includes planning, design, construction and program management of transportation and environmental related projects.

**Choosing RK&K** - Every one of our 1,500 employees is treated as a professional within a stable and responsive environment. Voted #1 on Baltimore Sun's "Best Places to Work" list for multiple years, RK&K provides a culture of learning, growth and enrichment. We are proud of both the work that we do and our engaged, passionate workforce that gets it done.

**Work from our Richmond, Fairfax, Virginia Beach or Newport News Office**

We are searching for a mid- to senior-level professional to support water resources in the field of stream restoration related studies and designs, to include preparation of construction documents, specifications and cost estimates, and construction management. Specific areas of expertise will include stream/wetland assessment and restoration, watershed studies, H/H analysis, stormwater outfall stabilization, SWM and TMDL removal credits, construction oversight/inspection of environmental restoration projects, and permit acquisition. The position will be able to help expand the firm's capabilities in this field through business development initiatives such as client outreach, training, and presentations.

Minimum requirements include BS degree in engineering or related sciences field with a history of progressive and related experience. Seven to ten years of experience is preferred. Successful candidates must enjoy working outdoors periodically in all seasons. CADD and GIS experience is preferred.

Candidates will work in a diverse and challenging environment and must be: 1) capable of coordinating simultaneous tasks, 2) adept at public interaction on technical matters, 3) able to write reports and prepare permit applications for oversight agencies and to address the full range of environmental issues and conditions associated with water resources projects.

RK&K offers a competitive salary and excellent benefits package, including major medical, tuition reimbursement and training in addition to paid leave, paid holidays and a 401(k) plan with company match.

Qualified candidates should apply at:
